## Spring is in the air!

There is certainly an incredible air of optimism throughout the entire country as we enter 2022 with new hope and confidence that will allow us all to finally see us return to normal in work and in our personal lives!

2021 was a record-breaking year for the National Lottery on so many levels. €289 Million is the most important figure! This represents the amount raised in Good Causes from the sale of National Lottery games last year. This is a record amount raised in any one year in the history of the National Lottery in Ireland and you as a retail partner should be so proud of this achievement which will benefit thousands of community and charitable groups in every county in Ireland. In addition, another milestone which should not go unnoticed is that a record amount of over €50 million was also paid in retailer commissions.

And what a start we've had to 2022, in which we have already seen a lucky Mayo player crowned Ireland's biggest ever Lotto winner after they won the record €19.06 million jackpot in an unprecedented 'Will be Won' draw event which truly gripped the nation last January. My congratulations to Laura Scrinney and her team at the XL store in Castlebar town who have entered the Lotto history books as a result of this win.

Our retail performance last year has given us the perfect platform to grow further in 2022 and we are already working on some exciting projects which will further support our retail partners in the responsible and sustainable promotion of our games into the future.

As part of our commitment to further improve our customer journey in-store, we have rolled out a 'store of the future' test concept within a small number of retailers throughout the country which includes state of the art jackpot communicators at all till points, Digital LCU, Digital Play stands, Lit Lottery Counter Units and in-lane jackpot communicators. We are very excited about these new developments which will improve the look and feel of lottery equipment in-store, and I look forward to sharing the results of this test concept with you in the coming months.

As always, we continue to work on a number of exciting marketing campaigns and special promotions which will drive further foot-fall in-store. Our new and widely acclaimed 'Village' advertising campaign continues to support our Lotto and EuroMillions games.

Given the continued popularity of our games, we want to remind you of the importance of remaining alert to ensure that the protection of our players is at the forefront of what we do. To help support you in the responsible promotion of National Lottery products, we encourage all of our retailers to continue to utilise our Retail Portal for training and certification. In addition, we will be rolling out brand new point of sale which will continue to promote our 'Think 21' ID campaign and scratch card purchase limits which are a key component of our Responsible Play campaigns.

As always, if you ever require any support, you can contact your local National Lottery Representative as normal or indeed you can contact our retail team on 1800 22 66 88 or by emailing telesales@lottery.ie.

I thank you once again for your support.

## Draw Game Promotion

### €1 Million Lotto Plus Raffle

On Saturday 19th February, a **GUARANTEED €1 Million** will be added to the **Lotto Plus RAFFLE**. This is the 2nd Lotto Plus €1 Million Raffle in 2022 and the 19th overall.

#### How do I play?

Buy a Lotto Ticket with Plus as normal, for each line on the ticket you get a non-unique raffle code between 0001 - 9999. Remember to check your raffle codes after every draw!

#### How do I win?

As per every Lotto Draw a lucky raffle code will be selected, any ticket with that code wins €500. On 19th February all tickets with the winning raffle code will also win an additional share of the €1 Million prize.

Typically there are approximately 100 - 120 winners of the Lotto Plus Raffle every Saturday. This means that on Saturday 19th February players with the winning raffle code on their ticket will win approximately €10,000 (amount may vary depending on the number of winners on the night).

## Your Quick Reference Guide to Retail Compliance

**Remember** - the number of Scratch Cards that can be purchased in one or series of contemporaneous (simultaneous) transactions is limited to 10 tickets.

### Mystery Shopper Programme:

The National Lottery operate a continuous programme of Mystery Shopper campaigns throughout the year to measure compliance with Retailer obligations on the sale & promotion of Lottery products. Campaigns are designed to reinforce the compliance message, educate Retail Owners & Staff and build a culture of awareness of the regulated nature of Lottery games.

### Age Control:

- Think 21 Test Purchase - a retailer must challenge for ID if a customer looks under the age of 21 years. Players must be 18 or over to purchase any Lottery product
- Age Control Notice – the 18 or over notices must be displayed at the point of sale

### Purchase Limits:

- The number of Scratch Cards that can be purchased in one or series of contemporaneous transactions is limited to 10 tickets. There are no exceptions to the rule.

### Ticket Checking & Prize Payment:

- Issuing of Customer Receipts - please remember that it is a requirement to give the customer the prize payment receipt after any prize has been validated for payment.
- If the ticket presented is not a winner, the ticket should always be returned to the player along with the 'NOT A WINNER' receipt which will print automatically.

**Remember failure of a Mystery Shopper campaign is a breach under the Retail Sales Agent Compliance Policy and will result in a sanction – the policy is available to view/download on the Retailer Portal.**

## Purchase Limits

The National Lottery is committed to the promotion of positive play in retail and last year in line with that commitment introduced a limit to the number of Scratch Cards that can be purchased in any one or series of contemporaneous transactions.

The 10-ticket purchase limit was officially launched in Retail in August 2020 and is now a central component of the Lottery's player protection program and has been one of the three key areas of focus in our last two Responsible Play Week initiatives.

The limit serves as an additional control to help address two key areas of concern that could contribute to problem play: limiting the total spend in any one or series of consecutive transactions & enabling a break in the 'session of play'. These limits are mandatory across all retail points of purchase and your obligations as a Retailer in this regard are incorporated into the Retail Sales Agent Compliance Policy. This change was also reflected in an amendment to Retail Agent Authorisation in 2020.

We currently have a suite of Purchase Limits POS in store which is required to be visible at the point of purchase. If you require any additional material, please contact your local Sales Representative who will arrange this for you. All compliance related POS material is currently under review and will be updated as part of the overall retail marketing plan and once agreed stores will be merchandised accordingly.

### What are my obligations as a Retail Agent?

Retailers must not sell more than 10 Scratch Cards in any one transaction or series of contemporaneous transactions.

If a customer seeks to purchase more than 10 Scratch Cards, the Retailer is obliged to advise the player of the 10-ticket limit and not proceed with the sale.

This regulation was introduced in the interest of players with the purchase limit applicable to a single or any series of simultaneous transactions in a store by a single customer without exception.

### Monitoring & Compliance

These Purchase Limit restrictions have been added to the Retail Sales Agent Compliance Policy. Failure to comply with these Purchase Limits will be considered a breach of the Policy and as such attract penalty points and sanction up to and including suspension/termination of the Retailers authorisation.

Non-compliance with Scratch Card purchase limits is a Category 2 breach under the policy, a copy of which can be viewed in the Retailer Portal.

Retailers are advised that compliance with Scratch Card Purchase Limits is tested as part of the National Lottery's ongoing Mystery Shopper programme. It is imperative that the limit on Scratch Card purchases is brought to the attention of all staff dealing with the sales & promotion of Lottery products.

## Paying Prizes

### Paying Prizes - Prize Payment Thresholds

All prizes up to and including €100 will validate automatically once presented to the Photon Terminal. Once validated by the central system the terminal will print two prize payment receipts, one for the agent's record and one that must be given to the customer

Prizes from €101 up to and including €2,500 can be validated and paid at the agent's discretion and attract a 1% prize payment bonus.

To ensure these prizes are validated correctly and your account is duly credited please follow the instructions on the terminal screen carefully, and only pay out the prize when the terminal has issued the two prize payment receipts.

To validate a prize from €101 up to and including €2,500 you must follow the 3 step validation process below:

1. Place the winning ticket (Scratch Card or Draw Game) on the Photon tray. If the prize exceeds €100 the prize value will display on the screen.
2. If you wish to proceed with the prize payment you must press the 'PAY' icon.
3. You will then receive a further 'prompt' asking if you have sufficient funds to pay the prize. If you still wish to proceed with the prize payment simply press the 'PAY' icon again and the ticket will validate and automatically print the two prize payment receipts.

If you opt not to proceed with the validation just select 'CANCEL PAYMENT'. The terminal will produce 'ticket prize inquiry receipt' which should be returned to the player with the original ticket. The player then has the option for bringing that ticket to another Lottery Agent or a designated Prize Claim Centre for payment.

#### Receipts

#### Terminal

**REMEMBER** Always retain prize winning tickets after validation for security and account balancing purposes. Once you are satisfied that your lottery transactions are fully reconciled, prize-winning tickets should be disposed of securely in an environmentally friendly way.

Only ever return a prize-winning ticket to a player where there are valid draws remaining.

*Note: In this instance the sales agent prize payment receipt should be used for reconciliation purposes.*

## Paying Prizes

### Previously Validated Messaging - What To Do?

**REMEMBER:** Always follow the instruction on screen when validating any prize and only pay out a prize when the terminal has issued two prize payment receipts, one for the customer and the other for your records.

If the following messages are displayed when attempting to validate a ticket please follow the on-screen instructions and call the Retail Helpdesk on 1800 22 44 55

**Previously Validated by another agent.**

Call the Retail Helpdesk for details.

**Previously Validated here.**

Check your Transaction history and contact the Helpdesk for confirmation.

The **Validation History** will allow you check the last validations to confirm if the ticket has been validated on your terminal. If you are satisfied the details match you can proceed with the prize payment. Again if in doubt always contact the Helpdesk for confirmation.

## Cancelling a Draw Game Ticket

#### Cancellation - Rules

- All Draw Based Game tickets can be cancelled with the exception of TellyBingo & Millionaire Raffle.
- Tickets must be cancelled within two hours of generation or 'Draw Break', whichever occurs first.
- Please remember it is best practice to always cancel a ticket where a customer, for whatever reason has decided not to proceed with the sale.
- **Do not offer that ticket for sale to another customer**

Where a ticket cannot be cancelled for whatever reason you must contact the Retail Helpdesk immediately where the incident can be recorded and an adjustment/credit can be initiated. In certain circumstances you may be asked to provide an image of the ticket to be adjusted for record purposes.

**IMPORTANT** Any requests received over two hours after incident or after Draw Break has occurred cannot be accommodated.

To cancel a ticket please follow on screen instructions.

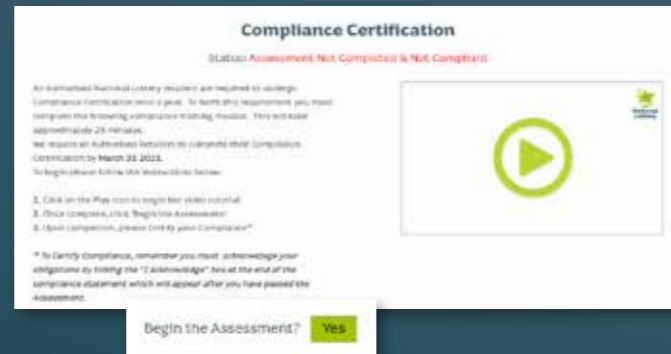

## Compliance Certification

As a National Lottery Retail Agent you are required to certify compliance with your obligations under contract and regulation annually. This can be done simply by completing the mandatory Compliance Certification module on the Retailer Portal.

Our records show you are already registered on the Retailer Portal so please follow the instructions below which should take no more than 30 minutes.

CERTIFICATION CAN ONLY BE COMPLETED BY STORE OWNERS.

1. Go to <https://retailer.lottery.ie/>
2. Once logged in Click on the Compliance Tab, and then select Compliance Certification.
3. Follow the on-screen instructions to watch the video tutorial.
4. Once the video has ended, click 'Begin the Assessment?', and answer the multiple choice questions related to the video content, you must score 10/10.
5. If you do not achieve 10/10 you must complete the assessment again.
6. Upon completion of assessment you must now Certify Compliance by ticking the 'I acknowledge' box at the end of the compliance statement.
7. Once the acknowledgement box is ticked, you are now certified as compliant until your next Licence renewal date in 2023.
8. Remember, you can access all training material including the compliance tutorial at any time to train staff on all matters relating to the sale of Lottery products.

Please ensure you read the statement carefully to fully understand your obligations as a Retail Agent.

## REMEMBER

All consumables orders placed on the Lottery terminal on any given day will be held on the system until the due date for your automated Scratch Card order. The consumable order will be consolidated with your Scratch Card order and delivered to you as one package. If no Scratch Cards are required for you on your due date the consumable order will be dispatched regardless.
